Group 3 - Workshop React Native

Goals

- React Basics
- We Build a Weather App
- Not covered: Testing :(
- Q/A if there's time left

React Native

- JavaScript (Node.js) to Native (iOS, Android)
- Structured in Components
- Flux Architecture (Observer Pattern)

Props and State

Components have...

- Properties , immutable, Note: JavaScript has no immutables!
  Looks like `this.props`
- State via Store, looks like `this.state`

Templates via JSX

- Looks like HTML/XML
- Feels like HTML (Styles like CSS)

Code. . .

```
$ npm install -g create-react-native-app
$ create-react-native-app weather-app
```
